TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

SECURITIES EXCLUDED FROM EXEMPTION

The Securities and Exchange Commission acting pursuant to the Securities Act of 1933, particularly sections 3 (b) and 19 (a) thereof, and deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary to carry out the provisions of the act, hereby amends paragraph (g) of § 230.221 (Rule 221) by adding at the end of such paragraph a subparagraph (3) so that paragraph (g) reads as follows:

§ 230.221 *Securities excluded from exemption.* No exemption under §§ 230.220 to 230.224 shall be available for:

(g) Any securities of an issuer if the issuer, any promoter of the issuer presently connected with the issuer in any capacity, or any person controlling, controlled by, or under common control with the issuer (1) has been convicted within 5 years preceding the filing of the letter of notification of any felony or misdemeanor involving the sale of any security or (2) is subject to an order, judgment, or decree of any court of competent jurisdiction, entered within three years preceding the date of filing the letter of notification, enjoining it or him from engaging in or continuing any conduct or practice in connection with the sale of any security, or (3) is a party to a proceeding for such order, judgment or decree initiated by or on behalf of the Commission, and any exemption for any unsold portion of such securities covered by a letter of notification previously filed under § 230.222 (Rule 222) shall, during the pendency of such proceeding, be suspended, and upon the entry of such order, judgment or decree, shall be terminated.

The Commission believes there is a necessity for summary action making the amendment effective immediately as to persons with actual notice of the rule in

order to take care of a situation where an application for an injunction is pending and where the Commission has reason to believe that the respondents may attempt to file a letter of notification under Regulation A (§§ 230.220 to 230.224) prior to the time in which the court can act upon the Commission's motion for a temporary injunction.

Accordingly, the Commission finds that notice and public procedure pursuant to sections 4 (a) and (b) of the Administrative Procedure Act are impracticable and unnecessary; and that, pursuant to section 4 (c) of that act, the amendment to the rule may be declared effective immediately with respect to persons having actual notice thereof, and absent such notice shall become effective 30 days after the date of approval of this amendment by the Commission.

(Sec. 19, 48 Stat. 85, as amended; 15 U. S. C. 77s)

By the Commission.

[SEAL] ORVAL L. DuBOIS,
Secretary.

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

[Departmental Regulation 108.102]

PART 42—VISAS: DOCUMENTATION OF ALIENS ENTERING THE UNITED STATES

WAIVER OF PASSPORT AND VISA REQUIREMENTS

The following amendments to Part 42, Chapter I, Title 22, Code of Federal Regulations, are hereby prescribed:

1. Paragraph (p) of § 42.107 *Nonimmigrants not required to present passports or visas* is amended to read as follows:

(p) An alien within any of the following classes who is seeking admission into the American Virgin Islands for business or pleasure for a period of less than thirty days on any one visit: (1) A British subject domiciled in the British Virgin Islands or in the British islands of Anguilla, St. Kitts, Nevis, Antigua, Montserrat, Redonda, Barbuda or St. Lucia; (2) a French citizen domiciled in the island of St. Bartholomew or in the French portion of the island of St. Martin; or (3) a Netherlands subject domiciled in the islands of St. Eustatius or Saba, or in the Netherlands portion of the island of St. Martin.

2. Paragraph (aa) of § 42.107 *Nonimmigrants not required to present passports or visas* is amended to read as follows:

(aa) A nonimmigrant alien who is exempt from the passport and visa requirements under the provisions of paragraphs (q) and (w) of this section, who is returning from a journey beginning at a port of the United States or Canada, who has not proceeded outside the Western Hemisphere nor transhipped from the original vessel, and who applies for admission at a port of entry to the United States in order to proceed in transit to a country contiguous to the United States.

3. Section 42.107 *Nonimmigrants not required to present passports or visas* is further amended by the addition of the following paragraph at the end thereof:

(bb) An alien who is a Canadian citizen or British subject domiciled, permanently residing, or stationed in Canada, who proceeds directly to Bermuda or the Bahama Islands from the United States

or Canada, who remains in Bermuda or the Bahama Islands for less than thirty days and who seeks to transit the United States in returning to Canada.

4. Section 42.202 *Immigrants not required to present passports or visas* is amended by adding the following paragraphs at the end thereof:

(t) An alien who is a lawful permanent resident of the United States, who is returning within 48 hours from a visit to Mexico, and who presents satisfactory evidence showing his previous lawful admission into the United States for permanent residence.

(u) An alien who is a lawful permanent resident of the United States, who departs on a visit to Cuba, Haiti, or the Dominican Republic under actual emergency conditions which prevent him from obtaining a reentry permit, and who, upon returning to the United States within thirty days, presents satisfactory evidence showing his previous lawful admission into the United States for permanent residence.

This order shall become effective upon publication in the *FEDERAL REGISTER*. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238, 5 U. S. C. 1003) relative to notice of proposed rule making and delayed effective date is unnecessary because the regulations contained in this order involve foreign-affairs functions of the United States.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Controlled Housing Rent Reg., Amdt. 222]

[Controlled Rooms in Rooming Houses and Other Establishments Rent Reg., Amdt. 220]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

MICHIGAN

The Controlled Housing Rent Regulation (§§ 825.1 to 825.12) and the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establish-

ments (§§ 825.81 to 825.92) are amended in the following respect:

A new item is hereby incorporated in Schedule B to read as follows:

62.¹ Provisions relating to certain defense-rental areas in the State of Michigan.

Decontrol of housing accommodations in trailers and trailer spaces on Housing Expediter's own initiative. In accordance with section 204 (c) of the Housing and Rent Act of 1947, as amended, the application of §§ 825.1 to 825.12 and 825.81 to 825.92 is terminated, effective March 1, 1950, with respect to all housing accommodations which on that date were housing accommodations in trailers or trailer spaces, located in any of the defense-rental areas or portions thereof in the State of Michigan except the following:

Wayne County, in the Detroit Defense-Rental Area.

Kent County, in the Grand Rapids-Muskegon Defense-Rental Area.

Calhoun County, in the Kalamazoo-Battle Creek Defense-Rental Area.

Ingham County, in the Lansing Defense-Rental Area.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Supp. 1894)

This amendment shall become effective March 1, 1950.

Issued this 28th day of February 1950.

PROPOSED RULE MAKING

CIVIL AERONAUTICS BOARD

[14 CFR, Parts 3, 4b, 6, 43]

RESTRICTED PURPOSE AIRWORTHINESS CERTIFICATION

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board amendments of the Civil Air Regulations in substance as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted, in duplicate, to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. All communications received by April 10, 1950, will be considered by the Board before taking further action on the proposed rules. Copies of the communications received will be available after April 12, 1950, for perusal by interested persons at the Docket Section of the Board, Room 5412, Commerce Building, Washington, D. C.

Under the current airworthiness requirements aircraft built or modified for special purposes, such as crop dusting, seeding, spraying, and similar industrial uses, may be certificated in the restricted category. The procedure of showing

compliance within this category is essentially the same as that required for a standard certificate. While some simplification may be realized by certifying in this category, inasmuch as the Administrator may waive such of the basic airworthiness requirements as are rendered inappropriate by the special purpose involved, he is required to prescribe limitations such that the operation will have "an equivalent level of safety" to that of an aircraft operating under a standard certificate.

We have been advised that the existing requirements, which were designed primarily to establish an appropriate level of safety for passenger-carrying aircraft, have imposed an unnecessary economic burden and are unduly restrictive for the manufacture and operation of aircraft intended for use in rural, sparsely settled areas outside the lanes of air commerce and in which no passengers are to be carried. The rapid growth of aircraft operations in the industrial field in recent years, especially the extensive use of aircraft as an agricultural tool, makes it advisable to review the existing standards and procedures for certification of restricted purpose aircraft.

It is intended to explore the need for revision of the basic airworthiness requirements during the current annual review of the airworthiness parts of the regulations. Meanwhile, until such time as the need for new and separate

regulations designed specifically for special purpose aircraft is clearly established, the Bureau intends to propose to the Board amendments of the restricted purpose category rules of Parts 3, 6, and 43 of the Civil Air Regulations to allow a simpler means of certifying this type of aircraft. Simultaneously, all references to restricted purpose certificates would be eliminated from Part 4b.

Where operations are restricted to sparsely settled areas so that public safety is not endangered and where passengers are not carried, it appears unreasonable to require the same level of safety as that required under other circumstances. The Bureau therefore proposes to eliminate the "equivalent level of safety" clause from the appropriate Civil Air Regulations for the restricted purpose category.

In the case of aircraft built for type certification in the restricted purpose category, it is intended to authorize the Administrator to waive such of the basic airworthiness requirements as he finds inappropriate for the special purpose involved, as in the past, and in addition to allow the simplification of the certification procedure with regard to requirements involving the submittal of

¹In the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92), the new item is Item 65.

engineering data, drawings, reports, inspections, and flight testing.

Where an aircraft has previously been type certificated and then modified for a restricted purpose, it is proposed to authorize the Administrator to issue a restricted purpose certificate upon inspecting the aircraft for general airworthiness and for obviously unsafe features. Engineering data, reports, or flight tests would not be required except where the Administrator finds it advisable to determine any unsafe feature or condition. On a similar basis the Administrator would be authorized to issue restricted purpose certificates to surplus military aircraft regardless of whether or not such aircraft had previously been certificated under Part 9.

It is intended to allow dual certification, i. e. the issuance of both a restricted and a standard certificate, only in cases where the Administrator finds that the means required to convert from one classification to the other are so simple that they obviously do not affect the safe operation of the aircraft. Where dual certification is authorized, the Administrator will specify appropriate operating limitations for each airworthiness classification together with a list of changes required for conversion and re-conversion. Because restricted purpose

operations may often be conducted from rough surfaces and at weights in excess of those anticipated under the rules for standard certification, and hence the aircraft may be subject to permanent structural damage in such operations, it is anticipated that the aircraft will be required to be submitted to an authorized representative of the Administrator or a certified mechanic for structural inspection and approval subsequent to each conversion from the restricted purpose to the standard classification before operation in which passengers are carried is resumed.

It is anticipated that the carriage of passengers in restricted purpose category aircraft will be prohibited except in areas and/or under conditions where the Administrator finds it in the public interest to allow this practice. For example, the Administrator might find it in the public interest to permit passengers to be carried, for hire or otherwise, in remote areas or under emergency conditions caused by fires, floods, tornadoes, sickness, etc. It is also intended that the operational limitations of a restricted purpose airworthiness certificate shall be reviewed and modified, if necessary, before a registration certificate may be transferred from one owner to another.

It is intended that the Administrator shall specify operating limitations for restricted purpose aircraft which will preclude the aircraft's use over populated areas, in congested air lanes, and at airports where passenger transport operations are being conducted, except that where the Administrator finds it in the public interest to allow operations in such areas he shall specify operating limitations which will provide the highest degree of public safety compatible with the type of operation involved. The Administrator may also prescribe the special purposes for which the aircraft may be used, or otherwise restrict or limit the aircraft to safe operational uses.

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

FEDERAL POWER COMMISSION

[Docket No. G-1322]

PANHANDLE EASTERN PIPE LINE CO.
ORDER AMENDING ORDER FIXING DATE OF
HEARING

FEBRUARY 27, 1950.

On February 16, 1950, the Commission issued an order in this proceeding fixing date of hearing on March 1, 1950, at 9:30 a. m., e. s. t., in which it was stated that this proceeding appears to be a proper one for disposition under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure for noncontested proceedings, provided no request to be heard, protest or petition raising an issue of substance is filed subsequent to the giving of due notice of the filing on the application. Said order provided the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of said rules.

Subsequent to the issuance of said order petitions to intervene in this proceeding have been filed with the Commission which appear to raise issues of substance. Under these circumstances this proceeding is not a proper one for disposition under the shortened procedure provided by § 1.32 (b) of said rules.

The Commission orders:

The order fixing date of hearing issued in this proceeding on February 16, 1950, be and the same is hereby amended by: (1) Changing the time the hearing is to commence from 9:30 a. m., to 10:00 a. m., e. s. t., on March 1, 1950; and (2) deleting therefrom the provision that the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

Date of Issuance: February 28, 1950.

[Docket No. G-1324]

JERSEY CENTRAL POWER & LIGHT CO.
NOTICE OF APPLICATION

FEBRUARY 27, 1950.

Take notice that Jersey Central Power & Light Company (Applicant), a New Jersey corporation with address at Asbury Park, New Jersey, filed on Feb-

ruary 10, 1950, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately seven miles of 10-inch ID welded steel pipe line extending from a point of connection on its transmission pipeline near Old Bridge and extending to Applicant's electric power plant situated in the Borough of Sayreville, Middlesex County, New Jersey.

Texas Eastern Transmission Corporation was authorized by the Commission in Docket No. G-1003 to deliver 5,000 Mcf natural gas on a firm basis to Applicant for sale and distribution in its franchise territory. Applicant was authorized at Docket No. G-1228 to construct the facilities to accept delivery of this gas from Texas Eastern. The construction proposed in this docket is for the purpose of receiving an additional supply of natural gas on an interruptible basis in quantities such as Texas Eastern may offer and which Applicant may desire to accept in accordance with the authorization by this Commission in Docket No. G-1211. Applicant does not propose to serve any communities or customers with the additional quantities of natural gas proposed herein. Applicant further states that substantial economies can be effected by the use of natural gas in its electric generating plant which will be reflected in reduced costs of production of electric energy which is distributed by Applicant and will tend to lower the cost of electric service.

The estimated total over-all capital cost of the proposed construction is \$239,750 which will be financed from funds on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) within 15 days from the date of publication hereof in the FEDERAL REGISTER. The application is on file with the Commission and is available for public inspection.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-1138]

FORD MOTOR CO., LTD.

MEMORANDUM OPINION AND ORDER DENYING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 27th day of February A. D. 1950.

The New York Curb Exchange has made application under Rule X-12F-2 (b) for unlisted trading privileges in the American Depositary Receipts issued by the Guaranty Trust Company of New York, as Depositary, representing 4½% Redeemable Preference Shares, Par Value 16 Shillings per share (ADRs for Preference Shares) of Ford Motor Company, Limited, a British company, on the ground that these securities are substantially equivalent to the American Depositary Receipts issued by the Guaranty Trust Company of New York, as Depositary, representing Ordinary Registered Shares, Par Value One Pound (ADRs for Ordinary Shares) of Ford Motor Company, Limited, which are now admitted to unlisted trading privileges on the New York Curb Exchange under the provisions of section 12 (f) (1) of the Securities Exchange Act of 1934 (the act) which authorizes continuance of unlisted trading on an exchange in a security which had been admitted to unlisted trading privileges on such exchange prior to March 1, 1934. The ADRs for Ordinary Shares have been admitted to unlisted trading privileges on the Exchange since December 18, 1928.

Rule X-12F-2 permits unlisted trading privileges to continue in a security despite the fact that minor changes have occurred, such as changes in the title of the security, the dividend rate, the par value and amount outstanding. If a more substantial change is made in the security, an application must be filed by the exchange supporting the contention that the altered security is substantially equivalent to the security admitted to unlisted trading privileges. This application must be approved by us before the

altered security may be admitted to unlisted trading.

The application discloses that the ADRs for Preference Shares are to be issued as a consequence of the following corporate changes. The Ford Motor Company, Limited, was organized in 1928 as the successor to a previous English Ford Motor Company. It acquired rights to the issued share capitals of the Ford Motor Companies then incorporated in Europe, as well as a new company, later incorporated in Egypt. These European and Egyptian companies will be hereinafter referred to as the Ford Associated Companies. The interest of the Ford Motor Company, Limited, in each of these companies, represented by stock ownership, was until the effective date of the present reorganization vested in a wholly-owned subsidiary, Ford Investment Company, Limited, of Guernsey, hereinafter referred to as F. I. C.

The Ford Associated Companies in the past declared and paid dividends to F. I. C., which were not distributed by F. I. C. to the Ford Motor Company, Limited, due to United Kingdom "taxation complications." These dividends accumulated in the hands of F. I. C. and at the time of the recent corporate changes were represented by cash and marketable investment to the total value of approximately £1,500,000. Negotiations were entered into between the American Ford Motor Company and Ford Motor Company, Limited, respecting the purchase by the American company from F. I. C. of the shares in the Ford Associated Companies. As a result of this, an independent report was made by one Lord Brand on the value of such shares. On the basis of this report the American Ford Motor Company offered the sum of \$4,256,860 for this investment.

This offer was embodied in an agreement dated August 19, 1949, between F. I. C. and the American Ford Motor Company. This agreement was made

¹ Rule X-12F-2 provides in pertinent part as follows:

(a) Any security admitted to unlisted trading privileges on a national securities exchange although changed in one or more of the following respects:

(1) Title of such security or the name of the issuer;

(2) The maturity, interest rate, and/or outstanding aggregate principal amount of an issue of bonds, debentures or notes;

(3) The par value, dividend rate, number of shares authorized and/or the outstanding number of shares of a stock;

shall, nevertheless, be deemed to be the security theretofore admitted to unlisted trading privileges on such exchange. Such exchange shall notify the Commission in writing of any such change promptly after learning thereof.

(b) Any security admitted to unlisted trading privileges on a national securities exchange in respect of which there is effected any change other than those specified in paragraph (a) of this rule, shall, nevertheless, be deemed to be the security theretofore admitted to unlisted trading privileges on such exchange, provided the Commission shall have determined, upon application by such exchange, that the security after such change is substantially equivalent to the security theretofore admitted to unlisted trading privileges.

dependent upon sums aggregating £7,200,000 being applied by the Ford Motor Company, Limited, as follows:

(1) A special cash distribution out of profit and loss account equal to £4,256,860 after deduction of tax is to be made to the American Company as the owner of 59.123 percent of the Ordinary Capital of Ford Motor Company, Limited. This sum will be paid to a blocked account in London and will be wholly applied by the American Company in paying F. I. C. for the shares in the Ford Associated Companies in accordance with the agreement referred to above.

(2) The sum of £2,943,140, which will be provided partly out of the amount standing to the credit of profit and loss account and partly out of capital reserve, is to be capitalized in favor of the other stockholders who own the balance of 40.877 percent of the Ordinary Capital of Ford Motor Company, Limited, and is to be applied in paying up in full, 3,678,925 new 4½% Redeemable Preference Shares, Par Value 16 Shillings, of Ford Motor Company, Limited, to be allotted at the rate of one Preference Share for every One Pound Par Value share of Ordinary Stock. Holders of these new Preference Shares will have the right to receive a fixed cumulative preferential dividend at the rate of 4½% a year and, upon liquidation, repayment of the capital paid up on such shares with any accumulated arrears, before any payment may be made to the holders of Ordinary Shares.

Following the sale of shares in the Ford Associated Companies by F. I. C. to the American Ford Motor Company, the assets of F. I. C., it would appear, are to be consist of the sum of \$4,256,860 received from the American Ford Motor Company and the cash and investments amounting to some £1,500,000 representing the accumulation of past dividends received by F. I. C. from the Ford Associated Companies.

Prior to the recent corporate changes, the relationship between Ford Motor Company, Limited, and the American Ford Motor Company was governed by an agreement entered into at the inception of Ford Motor Company, Limited, in 1928. By this agreement the Ford Motor Company, Limited, acquired exclusive rights to manufacture and sell Ford products in the United Kingdom of Great Britain and Northern Ireland, the Channel Islands, the Isle of Man, the Republic of Ireland, the Continent of Europe (excluding U. S. S. R.), parts of the Middle East and parts of Africa, which areas were denominated as the territory of the Ford Motor Company, Limited. Subsequent to 1928, agreements were entered into between Ford Motor Company, Limited, and each of the Ford Associated Companies, whereby the latter companies acquired the exclusive manufacturing and selling rights in defined areas of the territory of Ford Motor Company, Limited, leaving that company with such rights in the United Kingdom of Great Britain and Northern Ireland, the Channel Islands, the Isle of Man, and the Republic of Ireland. A new agreement has now been negotiated between Ford Motor Company, Limited,

and the American Ford Motor Company under which the territorial limitations on both sides are removed and each company undertakes to cooperate with and assist the other in promoting export sales and general commercial interests.

Stockholders of Ford Motor Company, Limited, have approved the foregoing corporate changes becoming effective by means of a Scheme of Arrangement under section 206 of the British Companies Act.

We think it amply clear from the foregoing facts that the ADR's for Preference Shares will represent an entirely distinct bundle of rights in Ford Motor Company, Limited, from those represented by the outstanding ADR's for Ordinary Shares and that they cannot be deemed by us to be substantially equivalent to such ADR's for Ordinary Shares. It may be noted further that the Ordinary Shares will continue to be outstanding and will continue to be traded on an unlisted basis on the New York Curb Exchange. If the pending application were granted, the New York Curb Exchange would then have admitted to unlisted trading privileges two American Depositary Receipts representing two distinct underlying securities, one an Ordinary Share and the other a Preference Share, on the theory that both American Depositary Receipts represented substantially equivalent securities.

For the foregoing reasons we find that the application must be denied.

Accordingly, it is ordered, Pursuant to sections 12 (f) and 23 (a) of the Securities Exchange Act of 1934 and Rule X-12F-2 (b) thereunder, that the American Depositary Receipts issued by the Guaranty Trust Company of New York, as Depositary, representing new 4½% Redeemable Preference Shares, Par Value 16 Shillings per share, of Ford Motor Company, Limited, are hereby determined not to be substantially equivalent to the American Depositary Receipts issued by the Guaranty Trust Company of New York, as Depositary, representing Ordinary Shares, Par Value One Pound, of Ford Motor Company, Limited.

It is further ordered, That the application of the New York Curb Exchange for unlisted trading privileges in the American Depositary Receipts issued by the Guaranty Trust Company of New York, as Depositary, representing new 4½% Redeemable Preference Shares, Par Value 16 Shillings per share, of Ford Motor Company, Limited, be, and the same is, hereby denied.

By the Commission.

OHIO EDISON CO. AND OHIO PUBLIC
SERVICE CO.

NOTICE OF FILING AND NOTICE OF AND ORDER
FOR HEARING

At a regular session of the Securities
and Exchange Commission, held at its
No. 42—2

office in the city of Washington, D. C.,
on the 24th day of February A. D. 1950.

Notice is hereby given that Ohio Edison Company ("Ohio Edison"), a registered holding company and a public utility company, and its subsidiary, The Ohio Public Service Company ("Public Service"), a public utility company, have filed a joint application-declaration pursuant to sections 6 (a), 7, 9, 10 and 12 (f) of the Public Utility Holding Company Act of 1935 (the "act"), the Rules U-43 and U-50 promulgated thereunder for approval of certain transactions incident to the merger of Public Service into Ohio Edison.

Pursuant to the Commission's orders of December 2 and December 5, 1949 (Holding Company Act Release Nos. 9539 and 9543) Ohio Edison has acquired 2,000,000 shares of the common stock of Public Service from Cities Service Company, a registered holding company. By the same orders Ohio Edison was authorized to make and has made an offer of its common stock to the public holders of the remaining 1,000,000 shares of Public Service common stock in exchange therefor. The application states that 748,822 of such shares of Public Service common stock had been exchanged pursuant to the offer which expires February 28, 1950, unless further extended. In connection with the purchase of the shares of Public Service owned by Cities Service, it was represented by Ohio Edison that upon the acquisition of these shares steps would be taken to merge Ohio Edison and Public Service.

The outstanding securities of Ohio Edison and Public Service as of December 31, 1949, were as follows:

	Ohio Edison	Public Service

Common stock (3,000,000 shares outstanding, \$7.50 par).....	-----	22,500,000

All interested persons are referred to said application-declaration which is on file in the offices of this Commission for a statement of the transactions therein proposed which are summarized as follows:

1. Under the Agreement of Merger, Public Service will be merged into and with Ohio Edison, which will become the surviving corporate entity and continue under the name "Ohio Edison Company." The status of Pennsylvania Power Company, which will be Ohio Edison's only remaining subsidiary following the merger, will remain unchanged.

2. It is proposed that if the merger is approved by this Commission and The Public Utilities Commission of Ohio it will thereafter be submitted to a vote of the common stockholders of each company as provided by Ohio law, which requires in the instant case that the merger must be approved by a vote of the holders of at least two-thirds of the common stock of each company. Under the charters of both companies, approval of the merger by the preferred stockholders of the companies is not required. Ohio Edison states that it will vote the common stock which it owns of Public Service in favor of the merger.

3. Each holder of the outstanding 3.90% Preferred Stock of Public Service will receive, in exchange for each share held, one share of a new series of 3.90% Preferred Stock of Ohio Edison, having the identical dividend rate, par value, redemption and liquidation prices as the stock being surrendered. The outstanding 4.40% preferred stock of Ohio Edison will continue to remain outstanding and unchanged in the hands of the holders thereof.

4. The holders of the common stock of Public Service (other than Ohio Edison) will receive for each share held 0.548 share of common stock of Ohio Edison. No fractional shares of Ohio Edison's common stock will be issued, but to compensate the holder of common stock of Public Service for any fractional share of Ohio Edison to which he would otherwise be entitled, Ohio Edison will make a cash payment in lieu of such fractional share of Ohio Edison based on a price of \$31.875 per whole share of Ohio Edison. This price is equal to the public offering price of Ohio Edison common stock sold in December 1949, in connection with the acquisition by Ohio Edison of the common stock of Public Service from Cities Service Company. The outstanding common stock of Ohio Edison will continue to remain outstanding and unchanged.

5. Common and preferred stockholders of both companies who dissent from the merger are to have the rights prescribed by Ohio law. The company states that, in its opinion, neither the preferred or common stockholders of Public Service nor the preferred or common stockholders of Ohio Edison would be "substantially prejudiced" by the merger, and that it proposes to oppose any proceeding for appraisal.

6. All of the assets of Public Service will be transferred to and acquired by Ohio Edison, which will assume all of the liabilities of Public Service, including its outstanding bonds and notes. With respect to the Public Service bonds, the filing states that it is the intention of Ohio Edison to exchange them for similar securities of its own or to redeem them with funds raised through the sale of its own bonds. As regards the notes, Ohio Edison presently intends to refund these issues through bank loans or the sale of additional bonds. Such financings, when determined upon, will be made the subject of a subsequent filing or filings with this Commission.

It appearing to the Commission that it is appropriate in the public interest and

in the interest of investors and consumers that a hearing be held with respect to the aforesaid application-declaration and that said application-declaration should not be granted or permitted to become effective except pursuant to the further order of this Commission:

It is ordered, That a hearing on such matters under the applicable provisions of the act and the rules thereunder be held on March 10, 1950, at 10:00 a. m., e. s. t., at the offices of the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. On such date the hearing room clerk in Room 101 will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise wishing to participate in the proceedings should file with the Secretary of the Commission, on or before March 8, 1950, a request or application relative thereto as provided by Rule XVII of the Commission's rules of practice. In the event that amendments to the application-declaration are filed during the course of the proceedings, no notice of such amendments will be given unless specifically ordered by the Commission. Any person desiring to receive notice of the filing of any amendments should specifically request Ohio Edison or Public Service for such notice or should file an appearance in these proceedings.

It is further ordered, That Richard Townsend or any other officer or officers of the Commission designated for that purpose shall preside at the hearing on such matters. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Public Utilities of the Commission having advised the Commission that it has made a preliminary examination of the application-declaration, and that, upon the basis thereof, the following matters and questions are presented for consideration by the Commission, without prejudice, however, to the specification of additional matters or questions upon further examination:

(1) Whether the provisions of the proposed Agreement of Merger, including the treatment proposed to be accorded the public security holders of Public Service meet all requirements of the applicable provisions of the act and the rules thereunder and are not detrimental to the public interest or the interest of investors or consumers, particularly in view of the obligations assumed and representations made by Ohio Edison in connection with its acquisition of shares of common stock of Public Service;

(2) Whether the proposed acquisitions of the securities and assets of Public Service by Ohio Edison meet the requirements of the applicable provisions of section 10 of the act;

(3) Whether the proposed issuance of securities by Ohio Edison in connection with the proposed merger meets the requirements of section 7 of the act;

(4) Whether the applicable provisions of section 12 of the act and the rules thereunder are satisfied;

(5) Whether the proposed accounting entries to be made upon the books of

Ohio Edison are in accordance with sound accounting principles in the light of the standards of the act and the rules and regulations promulgated thereunder;

(6) Whether the fees, commissions or other remunerations to be paid in connection with the proposed transactions are reasonable;

(7) Whether it is necessary or appropriate to impose terms or conditions with respect to the proposed transactions in the public interest or for the protection of investors or consumers and, if so, what terms and conditions should be imposed;

(8) Generally, whether the transactions proposed in the application-declaration comply with the requirements of the applicable provisions of the act and the rules promulgated thereunder;

It is further ordered, That particular attention shall be directed at said hearing to the foregoing matters and questions.

It is further ordered, That jurisdiction be and is hereby reserved to separate, either for hearing, in whole or in part, or for disposition, in whole or in part, any of the issues, questions or matters hereinbefore set forth or which may arise in this proceeding, or to consolidate in this proceeding other filings or matters pertaining to said application-declaration or to take such other action as may appear necessary or appropriate to an orderly, prompt and economical disposition of the matters involved.

It is further ordered, That a copy of this notice shall be mailed by registered mail to Ohio Edison Company, The Ohio Public Service Company, the Federal Power Commission, The Public Utilities Commission of Ohio and the mayors of the cities of Alliance, Elyria, Lorain, Mansfield, Marion, Massillon, Sandusky, Warren, Akron, Barberton, Campbell, Springfield and Youngstown, in the State of Ohio; that notice shall be given to all other persons by general release of this Commission, which shall be distributed to the press and mailed to the mailing list for releases under the act, and that further notice shall be given to all persons by publication of this notice in the FEDERAL REGISTER.

By the Commission.

PHILADELPHIA CO. ET AL.

NOTICE OF FILING, ORDER OF CONSOLIDATION,
AND NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 27th day of February 1950.

In the matter of Philadelphia Company, Equitable Gas Company, Pittsburgh and West Virginia Gas Company, Kentucky West Virginia Gas Company, File No. 70-2343; Philadelphia Company, File No. 70-2342; Philadelphia Company, File No. 50-34; Standard Gas and

Electric Company, File No. 70-2341; Standard Gas and Electric Company, Philadelphia Company, File No. 70-2340.

Notice is hereby given that pursuant to the provisions of the Public Utility Holding Company Act of 1935 ("act") applications-declarations have been filed with this Commission by Standard Gas and Electric Company ("Standard"), and its subsidiary, Philadelphia Company ("Philadelphia"), both registered holding companies and subsidiaries of Standard Power and Light Corporation, also a registered holding company, and by Equitable Gas Company ("Equitable"), a public utility company, Pittsburgh and West Virginia Gas Company ("Pittsburgh"), a public utility company, and Kentucky West Virginia Gas Company ("Kentucky"), a non-utility company, the latter three companies being subsidiaries of Philadelphia. The applicants-declarants have designated sections 6, 7, 9 (a), 10, 11 (b), 12 (b), 12 (c), 12 (d) and 12 (f) of the act and Rules U-23, U-24, U-42, U-43, U-44, U-45, U-46 and U-50 promulgated thereunder as applicable to the proposed transactions.

All interested persons are referred to said applications-declarations which are on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

I. *Reorganization of gas properties of Philadelphia (File No. 70-2343)*. Philadelphia owns all the outstanding common stock of Equitable, Pittsburgh, and Kentucky and 51,250 shares of 7% Cumulative Second Preferred Stock of Kentucky. The balance of the outstanding Kentucky 7% Cumulative Second Preferred Stock, consisting of 2,825 shares, which is the only issue of preferred stock of Kentucky outstanding, is owned by Pittsburgh, which also owns all the outstanding common stock of Philadelphia Oil Company, a non-utility subsidiary. As a means of facilitating compliance by Philadelphia with the requirements of section 11 (b) of the act and the Commission's order, dated June 1, 1948, it is proposed to combine all the natural gas and oil properties in Philadelphia's system under the ownership of Equitable and to effect certain changes in the capital structure of Equitable and Kentucky. In this connection the following steps will be taken:

(a) Pittsburgh will declare a dividend in kind to Philadelphia of the 2,825 shares of Kentucky preferred stock;

(b) Philadelphia will transfer to Equitable, in exchange for securities of Equitable as set forth in paragraph (d) below, all its holdings of common stock of Pittsburgh and of common stock and preferred stock of Kentucky;

(c) Equitable will authorize the issuance of \$17,500,000 principal amount of Twenty-Year 3½% Sinking Fund Debentures, to be dated March 1, 1950, and will amend its charter to increase its authorized common stock from \$15,000,000 par value to \$24,500,000 par value and to convert its presently authorized 750,000 shares of common stock, \$20 par value per share, including the outstanding 563,000 shares held by Philadelphia, into an undetermined number of shares of

common stock, having a lower par value per share;

(d) Equitable will issue to Philadelphia, in exchange for the securities described in paragraph (b) above, the debentures to be authorized and approximately \$4,771,860 additional par value of its reclassified common stock, the aggregate of the principal amount and par value of such securities being approximately equal to the underlying book values at December 31, 1949, of the securities to be acquired by Equitable;

(e) Philadelphia will purchase for cash \$1,000,000 aggregate par value of reclassified Equitable common stock, the proceeds to be utilized by Equitable, together with treasury funds, to retire Equitable's outstanding bank loans amounting to \$1,200,000 at December 31, 1949;

(f) Equitable will borrow \$1,800,000 from The Farmers Deposit National Bank of Pittsburgh and \$1,200,000 from Mellon National Bank and Trust Company, such loans to be evidenced by Promissory Notes of Equitable, bearing interest at the rate of 2.80% per annum, payable in nine annual installments commencing March 1, 1951, aggregating \$325,000 for each of the first six years and \$350,000 for each of the last three years;

(g) Equitable will transfer to Kentucky all the latter's outstanding preferred stock in exchange for 149,059 additional shares of Kentucky common stock and Kentucky will cancel and retire such preferred stock;

(h) Equitable will purchase from Kentucky 82,695 additional shares of Kentucky common stock for \$3,000,000 and Kentucky will use the proceeds to pay its outstanding bank loans aggregating \$3,000,000.

II. *Sale of Equitable common stock* (File No. 70-2342). Standard has heretofore filed with the Commission an Amended Plan for Simplification of the Corporate Structure of the Philadelphia Company System ("Amended Plan") under section 11 (e) of the act (File No. 54-173) which provides, among other things, for the retirement of the non-callable preferred stocks of Philadelphia and The Consolidated Gas Company of the City of Pittsburgh. Philadelphia states that it understands that such Amended Plan will be further amended so as to provide also for the retirement of the callable preferred stocks of Philadelphia and for the possible sale and divestiture of Philadelphia's interest in the common stock of Equitable, as such stock will exist upon the consummation of the reorganization of Equitable described in Part I above, and for the redemption and retirement of the funded debt of Philadelphia with the proceeds to be derived from such sale.

Philadelphia, in compliance with the order of the Commission, dated June 1, 1948, and in contemplation of the further amendment of such Amended Plan, proposes, subject to the contingency set forth in Part IV below, to sell all its holdings of the common stock of Equitable and to use the proceeds for the redemption and retirement of \$33,709,000 principal amount of its 4¼% Collateral Trust

Sinking Fund Bonds, due July 1, 1961, at the redemption price of 103¾% of the principal amount thereof plus accrued interest to the date of redemption, and \$2,400,000 principal amount of its 2½% Collateral Trust Serial Notes, due serially to July 1, 1951, at their principal amount plus accrued interest to the date of redemption.

III. *Request for exemption from competitive bidding in sale of Equitable common stock* (File No. 50-34). Philadelphia, which has heretofore been given informal permission by the Commission to negotiate with interested persons regarding the sale of the Equitable common stock, requests that such sale be exempted from the competitive bidding requirements of Rule U-50, promulgated under the act. In support of such request, Philadelphia asserts, among other things, that no equity securities of Equitable, Pittsburgh, and/or Kentucky have ever been publicly held; that the sale represents a common stock offering of unusually large size and magnitude; that the sale and use of the proceeds therefrom will be undertaken as integral steps in connection with the Amended Plan for Philadelphia filed by Standard; that complexities, past and present, in the corporate and capital structure of Equitable make an appraisal of the value of the common stock of Equitable exceedingly difficult; and that in the opinion of Philadelphia's management a better price will be received and greater flexibility will be obtained through negotiation rather than by competitive bidding.

IV. *Sale of common stock of Wisconsin Public Service Corporation* (File No. 70-2341). By an order of the Commission, entered August 8, 1941, Standard is required to dispose of its interest in its public utility subsidiary, Wisconsin Public Service Corporation ("Wisconsin"). Standard now proposes, as an alternative to the sale by Philadelphia of the Equitable common stock described in Part II above, to sell at competitive bidding, 1,625,000 shares, par value \$10 per share, being all the outstanding common stock of Wisconsin. The proceeds of such sale will be utilized in a manner described in Part V below. Standard and Philadelphia state that the sales contemplated by each are proposed in the alternative and that each reserves the right to withdraw its proposal. It is further stated that prior to the date for hearing upon the proposed sales, Standard or Philadelphia will notify the Commission as to which sale will be made and promptly after such notification Standard or Philadelphia, as the case may be, will withdraw the applications-declarations in respect of the sale which will then have been abandoned.

Standard requests that the ten day notice provided for by Rule U-50 be shortened to not less than six days.

V. *Application of proceeds from sale of Wisconsin common stock by Standard* (File No. 70-2340). Standard proposes, in the event of a sale of its holdings of Wisconsin common stock, to lend to Philadelphia an amount equal to the proceeds of such sale. Philadelphia proposes to issue to Standard an 18-month 4½% unsecured promissory note payable without premium at any time prior to maturity.

Standard and Philadelphia also propose to enter into an agreement giving Standard the right to convert such note into common stock, as hereinafter stated, at a price to be fixed by Standard and Philadelphia and approved by this Commission, or, if Standard and Philadelphia do not agree upon a price, at a price found by this Commission to be fair and equitable to the security holders of Standard and Philadelphia. If, at the time Standard elects to convert such note, the proposed Combined Plan for Reorganization of the Pittsburgh Railways System under the Bankruptcy Act and for Discharge under the Public Utility Holding Company Act of 1935 of Philadelphia Company's Guarantees Affecting Pittsburgh Railways System Securities ("Combined Plan"), dated July 1, 1949 (File Nos. 52-28 and 54-183), shall have been consummated or shall have become final and binding upon all parties thereto and all holders of securities of Pittsburgh Railways System, then Standard shall have the right to convert such note only into common stock of Philadelphia. If, at the time Standard elects to convert such note, the Combined Plan shall neither have been consummated nor become final and binding, then Standard shall have the right to convert such note into Equitable common stock, if Philadelphia has not sold the same, or into common stock of Duquesne Light Company, a public utility subsidiary of Philadelphia.

Philadelphia proposes to use the proceeds of the sale by Standard of the Wisconsin common stock together with sufficient funds to be borrowed from one or more banks to redeem its funded debt as described in Part II above. It is stated that the amount and details of such proposed bank loan will be supplied by amendment.

Applicants-declarants state that the West Virginia Public Service Commission and the Pennsylvania Public Utility Commission are the only State Commissions having jurisdiction over any of the proposed transactions.

Applicants-declarants request that the Commission take appropriate action as soon as possible and state that the Commission will be requested, as to some or all of the proposed transactions, to make the recitals, specifications and itemizations required by sections 371 (b), 371 (f) and 1808 (f) of the Internal Revenue Code.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said applications-declarations and that said applications-declarations shall not be granted or permitted to become effective except pursuant to further order of the Commission; and

It further appearing that the foregoing matters are related, and the evidence offered in respect to each of the matters may have a bearing on the other, and that substantial savings in time, effort and expense will result if said matters are consolidated:

It is hereby ordered, That the said proceedings be, and hereby are, consolidated.

It is further ordered, That a hearing on said applications-declarations, pur-

suant to the applicable provisions of the act and the rules of the Commission, be held on March 13, 1950, at 10:00 a. m., e. s. t., at the offices of the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. On such date the hearing room clerk in Room 101 will advise as to the room in which such hearing is to be held. Any person desiring to be heard in connection with this proceeding or proposing to intervene herein shall file with the Secretary of the Commission, on or before March 10, 1950, a written request relative thereto as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That William W. Swift, or any other officer or officers of this Commission designated by it for that purpose, shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Public Utilities of the Commission having advised the Commission that it has made a preliminary examination of the said applications-declarations and that, on the basis thereof, the following matters and questions are presented for consideration without prejudice, however, to the presentation of additional matters and questions upon further examination:

(1) Whether the securities to be issued will be reasonably adapted to the security structure and earning power of the issuing companies and will otherwise meet applicable standards of the act;

(2) Whether the terms and conditions of the proposed securities to be issued, including the proposed agreement between Philadelphia and Standard, the proposed bank loan agreement and the proposed debenture indenture of Equitable, and applicable provisions of the proposed charters and by-laws of Equitable and Wisconsin are appropriate and not detrimental to the public interest or the interest of investors or consumers;

(3) Whether the incurring of bank loans and the issuing of the proposed promissory note to Standard by Philadelphia are necessary and appropriate to effectuate the provisions of section 11 (b) of the act;

(4) Whether the proposed acquisitions of securities satisfy the requirements of section 10 of the act and, particularly, the requirements of section 10 (b) and 10 (c);

(5) Whether the proposed transactions meet the requirements of section 12 of the act and the rules and regulations promulgated thereunder;

(6) Whether the facts and circumstances of the instant case warrant an exemption from the competitive bidding requirements of Rule U-50, in the event the Equitable common stock is sold, and whether, if an exemption is granted, competitive conditions have been maintained by Philadelphia in negotiating for the sale of such stock;

(7) Whether the fees and expenses to be paid in connection with the proposed transactions are for necessary services and are reasonable in amount;

(8) Whether the accounting entries in connection with the proposed transactions are appropriate and in accordance with sound accounting principles, and whether any additional or different accounting entries should be required;

(9) Whether, generally, the proposed transactions satisfy the applicable requirements of the act and the rules and regulations promulgated thereunder, and whether any terms and conditions should be required or imposed in the public interest or for the protection of investors and consumers and, if so, the nature of such terms and conditions;

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That jurisdiction be reserved to separate, either for hearing, in whole or in part, or for disposition, in whole or in part, any of the issues, questions or matters herein set forth, or which may arise in these proceedings, or to consolidate with these proceedings other filings or matters pertaining to the subject matter of these proceedings, and to take such other action as may appear conducive to an orderly, prompt and economic disposition of the matters involved.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this order by registered mail to Standard, Philadelphia, Equitable, Pittsburgh, Kentucky, the Federal Power Commission, the West Virginia Public Service Commission, the Pennsylvania Public Utility Commission, the Kentucky Public Service Commission, the County of Allegheny, Pennsylvania, and the City of Pittsburgh, Pennsylvania, and that notice be given to all other persons by general release of the Commission distributed to the press and mailed to the mailing list of releases issued pursuant to the public Utility Holding Company Act of 1935, and that further notice be given to all persons by publication of this notice and order in the FEDERAL REGISTER.

By the Commission.
